# Organization Description

## About Us

AgVentures Consulting is a technology consulting organization founded in January 2016 by Abeer Katiyal, Aditya Purandare & Sneha Chandrashekaraiah. We are based out of College Station, Texas. We believe in excellence, trust and learning.

We provide consulting in all things technical with expertise in cloud computing, cloud integration and mobile computing. Our consulting team consists of technical and business professionals experienced in transforming businesses by giving them a technical edge over their competition in their domain. Our services are directed to benefit organizations of all sizes wherein we help them get a technological foothold, upgrade particular features or transform an entire line of business. Our organization has about 3000 employees and we have 7 branches spread across the country. Our contact information and history can be found on the website [www.agventures.tech](http://www.agventures.tech).

## Business Model

Our company is backed by 5 major investors who have a place on the management board. We create value for our clients by aiding and assisting them to gain a technological foothold in their marketplace, staying a step ahead of their competition. Our main selling factor is our experience in different industries. We are proud to have representatives and experts from all business fields, therein enabling us to venture into new industrial zones. We provide tailored solutions to each client based on their company requirements and specifications.

We believe that relationships are here to stay and concentrate on retaining our customers long-term and in making new relationships. We value our customers. We promise to deliver quality service.

We have close ties with firms related to each business field like cloud vendors, management tools, technology alliances and are on retainer from many years. We also have ties with marketing firms to help promote our organization and help with our customers' needs if necessary.

Cost management is maintained by establishing virtual, mobile teams resulting in reduced overhead. We cut costs by keeping our key partners on retainer and establishing long-term investments with them.
